FOR IMMEDIATE RELEASE

Virtual Appointments Now Available at MRHS

(Madison, S.D.) April 1st, 2020 – Madison Regional Health System is now offering virtual appointments to protect the safety of staff members and patients. These appointments will be offered through Zoom, a video conferencing service that is offered for free to the public. Not all appointments are applicable to this program, and should be clarified with your provider.

“We are doing everything in our power to respect CDC guidelines and think it is very important to stay home as much as possible to flatten the curve,” said Tammy Miller, CEO of MRHS. “What we do now will greatly affect the future.”

###

About Madison Regional Health System: Madison Regional Health is a 22 bed non-profit, independent, facility that has been serving Madison and its surrounding communities for over a century. The Madison Regional Health System and its 280+ employees are dedicated to providing cost-effective, quality inpatient and outpatient healthcare services. This facility is certified by Medicare and Medicaid.

Madison Regional Health serves as a community health focal point through the provision and maintenance of a progressive, efficient, and well-managed health care institution committed to quality medical practice and high ethical standards... This institution is an equal opportunity provider and employer.
